

About the Interact@CIRMMT Series

The Interact@CIRMMT Series features informal presentations by our members on various useful topics. These presentations are streamed on multiple platforms and aim to promote interaction among our community while providing our fellow researchers with tools and resources so they can continue their work.

For more information and to send in requests for presentations on particular subjects, visit the following Microsoft Teams channel – [MS Teams – Interact@CIRMMT](#)

Please note that if you do not have an @mcgill email address, you must send us an email ([events\[at\]cirmmt.mcgill.ca](mailto:events[at]cirmmt.mcgill.ca)) to be manually added to the channel. This restriction is only in effect because the channel has been created with a McGill license of MS Teams, however all are welcome to join.

HOW IT WORKS

Each Interact@CIRMMT is led by a different member presenting on a topic of their choice and on a date and time convenient to them. The platform and format (e.g., a meeting, a talk, a demo, a jam, a share-and-tell, etc.) of presentations are also flexible to best accommodate the presenter's needs. The ideal duration is 20 min. After each event, if desired, a time for discussion can be held, allowing participants to network and exchange ideas. Once each new presentation is confirmed, an email containing all the details, including date, time, and URL is sent.

HOW TO PARTICIPATE

If you have a presentation in mind that you'd like to share with our community, please let us know the following details at least one week in advance via email [[events\[at\]cirmmt.mcgill.ca](mailto:events[at]cirmmt.mcgill.ca)]:

- Date
- Time/Duration
- Topic/Title
- Format (meeting, talk, demo, jam, etc.)
- Platform (Facebook, MS Teams, Zoom, etc.)
- Brief description (100 words)
